PRIYA RAGHAVAN

Platform Engineer

EXPERIENCE

Senior Platform Engineer, Halcyon Data
Mar 2019 - Present
Own the data platform serving 40 internal teams. Migrated the batch layer from cron-driven scripts to an orchestrated DAG, cutting failed overnight runs from roughly 12 per month to under 1. Built the schema registry in Python. Manage the Postgres fleet: replication, failover drills, index maintenance, and query review for teams shipping new features.

Platform Engineer, Halcyon Data
Mar 2017 - Feb 2019
Built internal tooling in Python and Go. Wrote the deployment pipeline.

Software Developer, Ridgeline Consulting
Aug 2015 - Feb 2017
Java backend work for client projects in insurance and logistics. Built a claims-matching service using a custom scoring index over 3M records.
