SAMEER QURESHI

Full Stack Developer

TECH

JS, TS, React, Node, Postgres, Mongo, K8s, Docker, GCP, CI/CD, ML basics.

WORK

Full Stack Developer, Copperfield Apps
Feb 2021 - Present
Own three services end to end. Moved the reporting store from Mongo to Postgres after write contention issues; designed the new schema and the backfill. Wrote the backfill tooling in Py. Run our K8s manifests and the GH Actions pipelines.

Developer, Toft Media
Jun 2019 - Jan 2021
Built the CMS front end in React and the API in Node. Added a caching layer that cut average response time by half.

PROJECTS

Recommendation prototype using collaborative filtering on a 400k-row ratings set. Wrote the similarity computation from scratch before switching to a library implementation.

EDUCATION

BCA, Elmsworth College, 2019.
