NIKHIL PAWAR

QA Engineer

PROFILE

Quality assurance engineer focused on manual and regression testing for web applications.

EXPERIENCE

QA Engineer, Bellhaven Software
Feb 2021 - Present
Own the regression suite for a mid-sized web product. Write and execute test cases, log defects, and verify fixes across three release trains per quarter. Automated roughly 40 smoke tests using Selenium WebDriver with Java. Coordinate UAT sessions with client stakeholders. Maintain the test-case repository and the defect triage board.

Junior QA Analyst, Marlowe Systems
Aug 2019 - Jan 2021
Executed manual test plans for a banking portal. Performed cross-browser and cross-device verification. Raised and tracked defects.

SKILLS

Manual testing, regression testing, test case design, Selenium, Java (basic), JIRA, Postman, SQL (basic SELECT queries for data verification), Agile.

EDUCATION

B.E. Computer Science, Ferngate Institute of Engineering, 2019. CGPA 7.4/10.

CERTIFICATIONS

ISTQB Foundation Level, 2020.
